### Why This Matters

Teachers are better able to redesign classroom environments for learning when they have skills in classroom management that involve technology integration (Grunwald and Associates, 2010).

### Why This Matters

When users have a positive experience with a product, they are more likely to continue to use it as well as share their experience with a friend or colleague; those who have a negative one are more likely to stop using the product altogether (Monetate, n.d.).
